New York, NY | (347) 327-4749 | at.wu18@gmail.com | linkedin.com/in/atywu/

EDUCATION

Baruch College, Zicklin School of Business — **New York, NY**
Bachelor of Business Administration in Computer Information Systems — *Expected May 2027*

PROFESSIONAL EXPERIENCE

CUNY Tech Talent Pipeline Residency - Data Analytics Track — **New York, NY**
Resident — *June 2026 - Present*

- Identified 2024 as the only complete data year for a bus-delay prediction capstone via a 1,361-file coverage check; caught that the switch to 2024 skipped weather data and re-ran it (8,784 rows)
- Used Claude to audit 5 Python scripts for the 639K-arrival dataset, surfacing 10+ defects including a delay metric that measured polling intervals, not lateness
- Structured the team's Jira board into 11 epics and presented market and financial analysis to ~60 attendees

Cognizant — **Teaneck, NJ**
Winter Intern — *January 2024*

- Tested a self-service portal, built in 3 weeks by a 5-person intern team, that lets prospective healthcare clients explore TriZetto offerings without a Cognizant rep
- Presented the interface walkthrough section to senior leaders including the Chief Product Officer, covering how prospective clients would navigate the product independently

LEADERSHIP & DEVELOPMENT

Ascend, Baruch College Student Chapter — **New York, NY**
Social Affairs Committee Member — *February 2026 - May 2026*

- Secured committee adoption of a 3-event chapter social plan over 3 competing mentor-mentee proposals by interviewing 3 Ascend members and co-developing the deck with a mentor
- Developed a backup competition format on short notice after event materials were delayed, preserving full programming for ~23 attendees

PROJECTS & ACHIEVEMENTS

OrbitCall: AI Builders Challenge with IBM Bob — **New York, NY**
Frontend Lead — *August 2026*

- Integrated the Bob-generated Streamlit dashboard into the team repo for a scheduler computing 1,267 passes across ~30 satellites and 3 ground stations; produced the architecture diagram and narrated demo
- Verified all 7 dashboard metrics after a pipeline rerun by reconciling raw CSV counts, pandas query results, and rendered UI, catching a headline shift (priority-1: 60/60 → 63/65) before submission

Chrome Extension: Prof Lookup — **New York, NY**
Product Lead — *July 2026 - August 2026*

- Scoped the product in a written handoff document and managed development across 7 PRs to ship a Chrome extension surfacing Reddit threads on RateMyProfessors pages; published to the Chrome Web Store in August 2026
- Increased useful-result rate from 5 of 9 to 8 of 9 professors across 2 hand-scored testing rounds; established a diagnose-before-coding workflow that exposed a silent school-ID bug

OPM 3000 Group Case: Amazon Offline Retail Expansion — **New York, NY**
Group Leader — *February 2026 - May 2026*

- Led a 6-person case team comparing 3 Amazon offline retail formats; recommended Amazon Go based on customer accounts and defended the recommendation in a 30-minute executive-style review
- Delivered a 12-slide deck from 6 contributors in 5 days, on deadline, by assigning slide ownership based on the case rubric, setting up the team chat, and following up on missing slides

SKILLS

Technical & Tools: SQL (BigQuery, Microsoft Access), Microsoft Excel (formulas, PivotTables, VLOOKUP, Power Query), Microsoft PowerPoint, Tableau, Jira, Git/GitHub, and Python
AI Tools: Claude and ChatGPT
Certifications: Oliver Wyman Integrated Consulting Group Job Simulation, Forage (August 2026)
